Frontend & Full-Stack Development

Tech-savvy professional with hands-on experience in designing and deploying scalable, responsive web applications across diverse platforms. Adept at translating complex UI/UX designs into robust front-end solutions while ensuring seamless backend integration using modern frameworks and languages such as React, Next.js, .NET, and TypeScript. Demonstrated expertise in delivering end-to-end e-commerce platforms, auction systems, and mobile applications with strong performance, functionality, and user experience. Collaborative team contributor experienced in agile workflows, sprint planning, and cross-functional coordination. Committed to clean, maintainable code and continuous learning to drive product innovation and business outcomes.

Areas of Expertise

- Front-End Engineering
- UI/UX Implementation
- Responsive Web Design
- E-Commerce Platforms
- Mobile App Development
- Debugging & Troubleshooting
- API Consumption & Documentation
- Cross-Functional Collaboration
- Database Integration

Technical Skills

Frontend: React, Next.js, React Native, Redux, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap
Backend: PHP, C#, .NET Framework, Prisma
Tools & DevOps: Docker, Git

Career Experience

Front-End Developer at NB SOFT, Belgrade, Serbia **2021 — Present**

Develop scalable, user-centric websites by translating UI/UX designs into interactive and responsive front-end interfaces. Collaborate with cross-functional teams to integrate front-end logic with backend APIs. Participate in sprint planning, feature development, and bug resolution across various client-based projects. Maintain clean, efficient, and well-documented code following industry standards.

Key Achievements/Contributions:

- Built 10+ fully functional, responsive ecommerce websites, enabling faster deployment cycles and improved client satisfaction.
- Increased client sales certainty by 50% by implementing front-end tracking and integrating analytics tools like Google Analytics.

Front-End Intern at Kolezeee Solutions, Belgrade, Serbia **2020 — 2021**

Assisted senior developers in coding, testing, and troubleshooting web applications during the initial training period. Maintained version control using Git under supervision. Practiced converting design mockups into static HTML/CSS templates. Participated in code reviews and debugging sessions to identify front-end inconsistencies.

Key Achievements/Contributions:

- Improved delivery timelines by 2x and freelance firm's earnings by 20–30% through faster front-end development and streamlined delivery.
- Gained hands-on expertise in HTML, CSS, and JavaScript by supporting real-time website development projects.

Key Projects

Car Auction Platform | Next.js, .Net Framework, Typescript, Docker (2025) – **Link to repository**

- Delivered scalable Car Auction Platform using Next.js, .NET Framework, RabbitMQ, and dual-database architecture (Postgres & Mongo) for seamless auction listing and real-time bid synchronization across services.

ETech Web Shop | C# .Net Framework, React & TypeScript (2024) – **Link to repository**

- Built robust ETech Web Shop e-commerce platform for gaming equipment using React, TypeScript, and .NET Framework, supporting end-to-end user interaction including cart, login, and product browsing.

Mobile Store App | React Native (2024) – **Link to repository**

- Developed a dynamic Mobile Store App in React Native, integrating login authentication, database connectivity, and in-app mail verification for enhanced mobile shopping experience.

A3 Sport CZ & SK | Javascript (2022) – **Webiste: https://www.a3sport.cz & https://www.a3sport.sk**

- Launched a fully functional multilingual A3 Sport CZ & SK e-commerce website using JavaScript, HTML, CSS, and PHP in collaboration with the client, enabling real-time product purchases across the Czech and Slovak markets.

Education

Information Systems and Technology, Faculty of Organizational Sciences (2018 – Present)

Licenses & Certifications

Building a Tech Ticketing App, TypeScript & Next.js, 2025 – **Certification Link**
Microservices App with .Net and NextJS, Next.js, .Net, Docker, 2025 – **Certification Link**
Full Stack E-Commerce App, .Net, React, TypeScript, 2024 – **Certification Link**
React Native Practical Guide, React Native, 2024 – **Certification Link**
Udemy Certificate of Completion, React.js, 2022 – **Certification Link**
