Software Engineer (Frontend / Full Stack)

Results-driven professional with substantial experience in delivering scalable React applications, improving application performance, and building maintainable software solutions across frontend and full-stack environments.

Repeated success in developing scalable frontend applications, translating UI/UX designs into responsive interfaces, integrating REST APIs, and delivering production-ready eCommerce solutions. Adept at building reusable React and Next.js components, optimising website performance, improving accessibility and SEO, and implementing analytics to support business growth. Experienced in collaborating with Agile teams, resolving production issues, maintaining clean codebases, and leveraging .NET, Node.js, SQL, MongoDB, and Docker to support full-stack application development. Recognised for accelerating feature delivery, contributing to scalable software engineering practices, and delivering measurable business impact across Frontend, React, Next.js, and Full-Stack (.NET/React) environments.

Area of Expertise

- | | | |
|------------------------------------|---------------------------------------|-------------------------------------|
| ● Frontend Application Development | ● Responsive Web Development | ● Cross-Functional Collaboration |
| ● React Application Development | ● REST API Integration | ● Agile Software Development |
| ● Next.js Framework Development | ● User Interface Engineering | ● Scalable Application Architecture |
| ● Full Stack Development | ● Performance Optimisation Techniques | ● Production Issue Resolution |

Technical Proficiencies

Backend: C#, .NET Framework, ASP.NET, Node.js, Express.js, PHP, RESTful APIs, Microservices
Frontend: React, Next.js, React Native, Redux, Redux Toolkit, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, ShadCN UI
Tools & Databases: Docker, Git, GitHub, SQL, PostgreSQL, MongoDB, Mongoose, Prisma, Entity Framework, RabbitMQ, NextAuth, JWT, React Hook Form, Zod, ESLint

Professional Experience

NB SOFT, Belgrade, Serbia 2021 – Present
Front-End Developer

Improve website performance by reducing page load times through front-end architecture optimisation and responsive design enhancements. Enhance application scalability and maintainability by developing reusable front-end components and following clean coding standards and best practices. Reduce production issues by identifying, debugging, and resolving front-end defects, improving application stability and user experience.

Key Contributions:

- Accelerated delivery of 10+ responsive eCommerce websites by developing front-end solutions that improved user experience.
- Enabled seamless data exchange and reliable application performance by integrating front-end systems with RESTful APIs.
- Boosted user engagement by building pixel-perfect interfaces from UI/UX designs that improved usability and accessibility.
- Delivered features on schedule by collaborating with cross-functional teams in Agile sprints to meet project milestones.
- Improved website visibility through structured data, SEO enhancements, Google Merchant Center integrations, and analytics.
- Delivered tailored frontend solutions by partnering closely with clients to translate business requirements into intuitive, high-performing web experiences that aligned with organizational goals and user needs.

Kolezeeee Solutions, Belgrade, Serbia 2020 – 2021
Front-End Intern

Developed responsive, pixel-perfect web pages by converting UI/UX mockups into reusable HTML, CSS, and JavaScript components. Improved website quality by identifying, debugging, and resolving front-end issues, ensuring consistent cross-browser compatibility and responsive performance. Collaborated with senior developers in Agile workflows, contributing to code reviews, feature implementation, and faster sprint completion. Built reusable UI components that improved design consistency, reduced development effort, and streamlined project implementation.

Key Contributions:

- Strengthened development efficiency by utilising Git for version control, maintaining clean code, and following front-end best practices.
- Contributed to multiple client websites, gaining hands-on experience in HTML, CSS, JavaScript, and responsive web development.
- Earned increased ownership by progressing from training assignments to supporting live client projects.

Key Projects

Car Auction Platform (June 2025) | Link: <https://github.com/bociwess0/CarAuctionPlatform>

Tech: Next.js, .NET Framework, TypeScript, Tailwind CSS, C#, Docker, PostgreSQL, MongoDB, RabbitMQ, NextAuth, Microservices, ShadCN UI

- Architected a scalable car auction platform with a dual-database, microservices architecture (Postgres & MongoDB), enabling real-time bid synchronisation and seamless auction listings across services.

Clothing Store (March 2026) | Link: <https://clothing-store-sable-tau.vercel.app>

Tech: Next.js v15, TypeScript, Tailwind CSS, Prisma, PostgreSQL, NextAuth, Stripe, PayPal, Jest, React Hook Form, Zod, ESLint, ShadCN UI

- Architected a full-stack e-commerce solution with integrated payment processing (Stripe/PayPal) and an admin dashboard, designed to streamline online retail operations end-to-end.

Places App (June 2026) | Link: <https://places-app-nu.vercel.app>

Tech: React, Redux Toolkit, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Material UI, Cloudinary

- Engineered a full-stack travel platform empowering users to discover, share, and manage visited destinations, driving community-generated content through secure authentication and cloud-based image management.

ETech Web Shop (July 2024) | Link: <https://github.com/bociwess0/ETechWebShop>

Tech: React, TypeScript, C#, .NET Framework, ASP.NET, Entity Framework, Material UI

- Delivered a full-featured e-commerce platform for gaming equipment, driving seamless end-to-end user journeys from product browsing through cart and checkout.

Mobile Store App (December 2022) | Link: <https://github.com/bociwess0/MobileStoreApp>

Tech: React Native, JavaScript, Expo CLI

- Launched a cross-platform mobile shopping app with secure authentication and in-app email verification, elevating the mobile shopping experience through robust backend connectivity.

A3 Sport CZ & SK (August 2022) | Websites: <https://www.a3sport.cz> & <https://www.a3sport.sk>

Tech: JavaScript, HTML, CSS, PHP

- Delivered a multilingual e-commerce platform for a live client, unlocking real-time product sales across the Czech and Slovak markets and expanding the client's cross-border reach.

Education

Bachelor of Information Systems and Technologies (Expected 2026)

Faculty Of Organizational Sciences

Languages

Serbian (Native) | English (Professional Working Proficiency)

Licenses & Certifications

React, NodeJS, Express & MongoDB (MERN Fullstack) | React.js, Node.js, Express.js, MongoDB | [Link](#):

Building a Tech Ticketing App | TypeScript, Next.js | 2025 | [Link](#)

Build a Microservices App with .NET and Next.js from Scratch | .NET, Next.js, Docker | 2025 | [Link](#)
